

Dr. Renee Regacho Anaclerio

"It is a privilege to support the mission and goals of the Latino Leadership Council. Our staff and board members work tirelessly to support families in our community and advocate for more just systems. If I can lend my skills in any way, it is an honor."

Renee joined the LLC Board in 2018. She has served in public education for over 35 years, serving as a bilingual teacher, principal, and assistant superintendent for curriculum and instruction. As principal of a school with 90% English language learners and 90% low-income families, Renee hired a bilingual, bicultural staff, and together they moved the school from underperforming and on the state watch list to a California Distinguished School. She finished her public career at the Placer County Office of Education as Deputy Superintendent for Educational Services.

Renee is passionate about helping schools address disproportionality and closing opportunity gaps for students. She has facilitated trainings on Professional Learning Communities and Multi-Tiered Systems of Support. In retirement, she continues to coach new school administrators, promote the value of teacher and administrator diversity, and advocate for equity in education.
